TUCSON NETWORK ALLIANCE

Who to call after a storm

> Safety first: stay out of moving water, stay off a wet roof, and keep clear of downed lines. If anyone is in danger, call 911.

Roofing

What they do Inspect and repair tiles, shingles, flashing and flat roof drainage.

When to call Missing or lifted roofing seen from the ground, ponding on a flat roof, or a new ceiling stain or drip.

Restoration

What they do Dry out and clean up water inside the home.

When to call Water came inside: wet carpet, drywall or cabinets, or a musty smell after the rain.

Inspection

What they do A licensed home inspector looks over the house and writes up what they find.

When to call You want a full picture after the storm, or you are buying or selling soon.

Landscaping

What they do Regrade soil, rebuild washed out gravel, clear drains and culverts.

When to call Soil no longer slopes away from the house, water stands by the foundation, or your wash crossing is undercut.

Before anyone comes out: photograph each issue wide and close, and write where it is.
